DAIWA FACTORY Co., Ltd.

President Message

ご挨拶

私ども有限会社大和製作所は戦後間もなく大阪の地で船舶金物・建築金物製造を主とした業種で創業いたしました。当時は真鍮鋳物から手加工にてハンガーフック・ドアハンドルなどの製品を作りだしておりました。現在は真鍮からステンレスに素材が移り変わりましたが当初の加工技術を生かし、蓄積されたノウハウと研究開発をおこない高品質の製造技術を追求しております。硝子扉用コナーフレームでは日本トップシェアを誇りに、社員一同、扉の向こうの未来を見据えて新しいものへの挑戦を忘れず、お客様のニーズにお答えいたしまして硝子業界と社会に貢献できればと願っております。

代表取締役
東西田 豊

Our company, Daiwa Factory, was established in Osaka soon after World War II, to engaged mainly in production of metal parts used in ships and architecture. At that time, we handcrafted products such as hook hangers and door handles from brass castings. At present, we have shifted from brass casting to stainless steel and our aim is to pursue high-quality products by promoting R&D and utilizing original processing techniques and the right expertise.

We pride ourselves as being the top producer of corner frames for glass doors in Japan, and we are continuously challenging ourselves to try new things as we focus on the future on the other side of the door.

We will continue to meet our clients' needs, and hope to contribute more to the glass industry and society.
